

MARILIA CORTICINHO

Product Designer

A Product Designer from Portugal with a background in illustration and translation, complemented by prior experience as a flight attendant. Proficient in all stages of product design, from research to wireframing and prototyping. Passionate about crafting user-centric experiences and ready to tackle new design challenges head-on.

WORK EXPERIENCE

Emirates National Bank of Dubai ENBD

2022 – now

Product Designer

- Active participant in the redesign of the product across all platforms, mobile, web and ATM.
- Responsible for wire framing and designing end to end flows and prototyping.
- Researching and presenting new findings to stakeholders.
- Close iteration with developers and PO's in order to have a global vision of the product at all stages.
- Designed components and played a pivotal role as a proactive contributor to the ongoing evolution of the Design System..
- Also had the opportunity to create illustrations for not only ENBD but also Emirates Islamic and Liv.

Storhub Singapore

2021- 2022

Product Designer

- Working with a smaller team of designers that gave me the opportunity to develop my organizational and problem solving skills.
- Identifying the problem by organizing research interviews and workshops with users.

Freelancer

2020- 2021

Graphic Designer and Content Creator

- Worked with a variety of agencies and companies across the world, developing their brand and social media content.
- Developed my skills in photography editing, video editing and animation.
